

# MD ADIL RAZA

📍 Bangalore, India    ✉ mdadilraza510@gmail.com    ☎ +91 6203662085    🔗 LinkedIn    🐙 Github    👨‍🍳 CodeChef  
🔗 Portfolio

## PROFILE

Computer Science Engineering student with experience in Full Stack Development using Java, Python, React.js, TypeScript, Node.js, REST APIs, and MySQL. Built AI-powered and web-based applications with the knowledge of Data Structures & Algorithms, OOP, DBMS, Operating Systems, and Computer Networks. Passionate about developing scalable software solutions and continuously enhancing problem-solving skills.

## EDUCATION

**Bachelor of Engineering**, New Horizon College of Engineering  
Computer Science Engineering  
2023 – 2027 | Bangalore, India

## TECHNICAL SKILLS

**Programming Languages:** Java, Python, JavaScript, C  
**Frontend Technologies:** React.js, TypeScript, HTML5, CSS3, Tailwind CSS  
**Backend Technologies:** Node.js, FastAPI, REST APIs  
**Databases:** MySQL, MongoDB  
**Cloud & Tools:** AWS, Google Cloud, Git, GitHub, Vercel  
**Data Analytics:** Excel, Tableau, Power BI, R  
**Core Computer Science:** OOP, DBMS, Operating Systems, Computer Networks, Data Structures

## EXPERIENCE

**Future Interns** 🔗, Full Stack Web Developer Intern  
02/2026 – 03/2026 | Remote

- Developed responsive web applications using Python, React.js, HTML5, and CSS3, improving UI performance and usability.
- Designed and integrated RESTful APIs for seamless communication between frontend and backend systems.
- Implemented and managed a MySQL database schema for efficient data storage, retrieval, and transaction handling.
- Used Git and GitHub for version control and Agile collaboration in a remote team environment.

## PROJECTS

**GYANIBABA AI Chatbot** 🔗, AI-Powered Knowledge Assistant  
July/2025 – Jan/2026

- Developed AI chatbot using **Grok LLM API** to answer user queries in natural language.
- Integrated frontend chat UI with backend API for **real-time** conversations.
- Improved prompt engineering for better response relevance and flow.
- Optimized API handling and responsive UI for mobile and desktop.

**CyberShield X** 🔗, AI-Powered Threat Intelligence Platform  
Mar/2026 – Jul/2026

- Developed an AI-powered phishing detection platform using React.js, FastAPI, MySQL, and Machine Learning.
- Achieved **96%+ phishing detection accuracy** using ML, NLP, and rule-based analysis for **URL, SMS, and email threats** detection.
- Built a real-time analytics dashboard and reduced scan response time by **40%** through API and database optimization.

**SalesPulse Analytics Dashboard** 🔗, CRM & Sales Analytics Platform  
May/2025 – Mar/2026

- Developed a business analytics dashboard to visualize KPIs, lead conversion rates, revenue growth, sales trends, and customer insights.
- Implemented **CRUD operations, role-based access control**, advanced search, and filtering for efficient workflow management.
- Built reporting and analytics features to support data-driven decision-making and improve operational efficiency.
- Integrated frontend, backend, and database components to deliver a responsive and scalable business management solution

## TECHNICAL ACHIEVEMENTS

- Solved **163+ problems using Java on CodeChef**.
- Built multiple Full Stack and AI-powered applications using modern technologies.
- Active participant in coding contests(Pixel Pursuit) and hackathons(Quantum\_X24).

## CERTIFICATES

- |                                    |                                   |                                        |                  |
|------------------------------------|-----------------------------------|----------------------------------------|------------------|
| • AWS CLOUD PRACTITIONER ESSENTIAL | • Google Cloud Arcade Facilitator | • Python 101 for Data Science          | • SQL bootcamp 🔗 |
| • Database Management System       | • Data Analysis with Python       | • Cloud Architecture Design & Security | • R programming  |
